

“Information on worldwide sales (or amounts used) for five pesticides: Glyphosate (CAS 1071-83-6) , Diazinon (CAS 333-41-5), Malathion (CAS 121-75-5), Parathion (ethyl, CAS 56-38-3), and Tetracholpos (CAS 22248-79-9). Ideally would like information by world region (e.g., Latin America, Asia, Europe, etc.) General trends would also be useful. Already have US EPA Market Estimates”
